## MUST SHOW THE DOOR OF NATION OF DISLOYALISTS

Property Rights Will Be But Idle Dust, L. C. Boyle Told Lumbermen, If House Is Not Put in Order.

"Let us not forget that all we have—our mills, our factories, our stores—are but idle dust blowing in the whirlwind if we do not put our houses in order and show the door to those people of foreign nations, such as the Bolsheviks of Russia, who are preying on the backs of our government," Gen. L. C. Boyle, of Washington, D. C., counsel for the American Hardwood Manufacturers' association, told that organization in annual convention at the Hotel Chicago Wednesday afternoon.

Boyle uttered the warning in the course of an address on the American problem of the day. "We want to teach the people who come chattering around our public places saying this is a greedy nation of money grabbers with perverted government that they cannot stay over here and talk that way," he said.

"Here in this troubled hour, in this aftermath of war, all kinds of vagaries, all kinds of fallacies are springing up," Gen. Boyle continued. "Men are defiant in groups of the bands of our government—the law. A philosophy is gaining ground in this country that the rights of the individual, the worker's rights, are superior to property rights. Thousands of misguided men in this country feel that property rights can be disposed of by the mob—by direct action."

**Real Kultur Needed.**  
"Direct action means that the workers take possession of the tools of industry and use them to their own ends. This is class government, government for a class and by a class and utterly opposed to every basic principle of our government."

In counter action to this dangerous drift of the mind, Gen. Boyle said, "we do not live in a pure democracy, we live in a limited democracy, a government-by-representative form, we have a government of laws."

The speaker pleaded for a return to the spirit of the "earlier days," the days in which Tom Paine wrote his Common Sense papers, preaching loyalty and liberty and combating tyranny. Referring to the "kultur" which Germany established for the attainment of an evil design, he declared that "we must develop a 'kultur' in this nation with the ideal of liberty as the symbol."

"Let us go back to the old found of loyalty," he urged, "and get back the spirit of real Americanism. We do not pay enough attention to that great charter which gave us our country, that great ark of the covenant, the constitution." Americanism, he said, should be taught in the schools and we should be more careful about the teachers we give our children.

**Rail Return Favored.**  
Gen. Boyle took up the railroad question, declaring that he was opposed to government ownership, after seeing it in practice and hoped the railroads would be returned to their private owners. But he did not want this return to take place until adequate legislation was passed to prevent the certain disorder of transportation and bankruptcy of many small roads, which would result in the premature reversion of the roads to their original holders.

The lumber industry was probably as vitally interested in a correct solution of the railroad problem as any other group in the country, he said, because 11 per cent of all the freight annually hauled was contributed by this industry.

The Wednesday morning session of the convention, which began at 10:30 o'clock, was a meeting of the open competition membership of the association. The meeting was opened by the Rev. W. W. Adams, pastor of the First Baptist church, and the annual report of F. R. Gadd, manager of statistics, was read.

The convention will close Wednesday afternoon with the annual election of officers.

## BETTER THAN WHISKEY FOR COLDS AND FLU

**New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.**

**Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.**

**Delightful Taste, Immediate Relief, Quick Warm-Up.**

The sensation of the year in the drug trade is Aspirinal, the two minute cold and cough remedy, tested, approved and most enthusiastically endorsed by the laboratories, tested, approved and most enthusiastically endorsed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.

## COMMERCE CHAMBER METHODS OUTLINED

A general outline of what the National chamber of commerce has accomplished and what it plans to do was told to 75 members of the Memphis Chamber of Commerce Wednesday at a special meeting and luncheon of the Weekly Forum by Adolph Boldt, field secretary for the national organization.

Mr. Boldt gave examples of how, through chamber of commerce methods, business men can secure co-operation; of how many civic activities can be inaugurated and how new business can be secured and older firms acquire profit. Mr. Boldt has headquarters in St. Louis.

Wednesday's meet was specially called, Thursday at the regular session Prof. W. Dyer, who holds the chair of political economy in Vanderbilt university, will address members. Prof. Dyer has not announced his subject.

Forum speakers for session early next year will include Bishop W. F. Murrah, who is scheduled to speak the third Thursday at the luncheon, and Rabbi W. H. Fineshriber, who will talk on the second Thursday in February. Acceptance of the dates were received by J. A. Goshack, assistant secretary, Wednesday morning.

### Easy Way to Keep Your Hair in Curl

If you have trouble keeping your hair in curl, you'll do well to try plain liquid silmerine. Apply a little at night with a clean toothbrush, drawing this down the full length of the hair from root to tip. The hair will dry in the prettiest waves and curls that you can arrange, and the effect will appear altogether natural. Instead of that dried-out look which the heated iron gives, the hair will be bright, lustrous and beautiful.

### LAST TRIBUTES PAID MRS. JOSIAH PATTERSON

Patterson, died at the LeMaster home Monday morning.
